Ref: Power Rate Increase

I am writing to protest another rate hike by SCEG. The average person can no longer afford to live in the State because of the high electric, water and cable bills. I have recently dropped Comcast because they were increasing rates faster than the power company. It has been reported that SCEG Rates are higher than Duke Power/ Santee Cooper and other public owned utilities. It is now time to allow Berkley Electric COOP and Santee service citizens of Charleston County.  
I am against another rate hike by SCEG
